the main office. or you can hand it to Mr. McCarty going through the hall. It would not be good to hand it to me, because stuff handed to me often is never seen again! But if you give it to Mr. McCarty, it will probably wind up in the bank account! We are interested in a Seminar of a theological institute program that interests people because it takes up subjects close to their hearts and relevant to the ministry. And whether it is relevant to the ministry or just your curiosity about Christianity, ~~we will welcome your advice.~~ So, I will distribute these afterwhile. There is ^{even} a place up here for kindly, scholarly and Christian love critique (laughter) What criticism do you have of teachers? (Read I Corinthians 13) (Laughter) 29-32. Be advised that we try to do everything in order! But that's how we got this institute this year, and that is the why of it.

Now, so far, Dr. MacRae has talked with you about the prophecies in Daniel. Dr. Newman has talked about the Apologetics, the Apologetic Value of Prophecy. When I do work for others, I have to cover my cost! But when I do it for me, it is just me! Besides that, besides that due to complications with fixing the beans and what not, I have two more pages that aren't ~~done~~ ^{run} yet, but we won't get to those today anyway. If you can't be with us tomorrow afternoon, I'll have the rest of these things run tomorrow morning, and you can snatch them from my office while I glare at you! But they can be gotten if you are interested. A lot of times in the Seminary the people do not care that much for my notes, so we will let that stand. There are actually three pages which I would like to distribute in the time-honored fashion of just giving each of these men one ^{because} (they have academic minds ~~because~~ and they would confuse the issue!) I will hand the pile to _____ here; he will—
